Comments (a selection)

- I really enjoy the crafts myself and it is good to get involved with my child. We have fun together.
- It is really good as it is now.
- Really enjoy coming in to school and working with my children and they really enjoy me coming in.
- I totally enjoy everything.
- There is nothing you could improve because you always make families in school really good and fun.
- I think they are brilliant.
- I love my time at family in school.
- Do not need improving.

What could we do to improve further?

Comment	Response
Maybe arrange more activities so younger children attending an older sibling's classroom can enjoy the activity aimed at the older child.	We attempt to make all of the activities accessible for all. Thank you for the feedback – we will review the activities planned for the next session.
I was shocked the children didn't do anything for Mother's Day.	Thank you for the feedback. Next year, we will ensure that we build time in to the curriculum to create a Mother's Day card.
Longer sessions!!	Thank you for the feedback. We initially had longer sessions, and the feedback from parents/carers and pupils was that the sessions were too long. We are confident that a one-hour session is sufficient.
Sometimes the sessions don't seem long enough by the time you get through everything, especially in nursery.	
Going outside on sunny days.	Thank you for the feedback. Due to the nature of the British weather, we always plan indoor activities. However, we will review the sessions held in the summer to see if there is scope to complete activities outside.
More family days.	Thank you for the feedback. Initially, we had planned one session per term. I am pleased to announce that sessions will now take place each half-term.
Sports Day!	Thank you for the feedback. Last year, we held a very traditional British sports day. This will take place again this year and will be an annual event.
